

DRY-FOOD KITCHEN

This is where dry food for the animals is weighed. The dry food is stored in silos in the attic and large bulk silos outside. They are connected to the kitchen through tubing and can easily be operated by a slider or switch

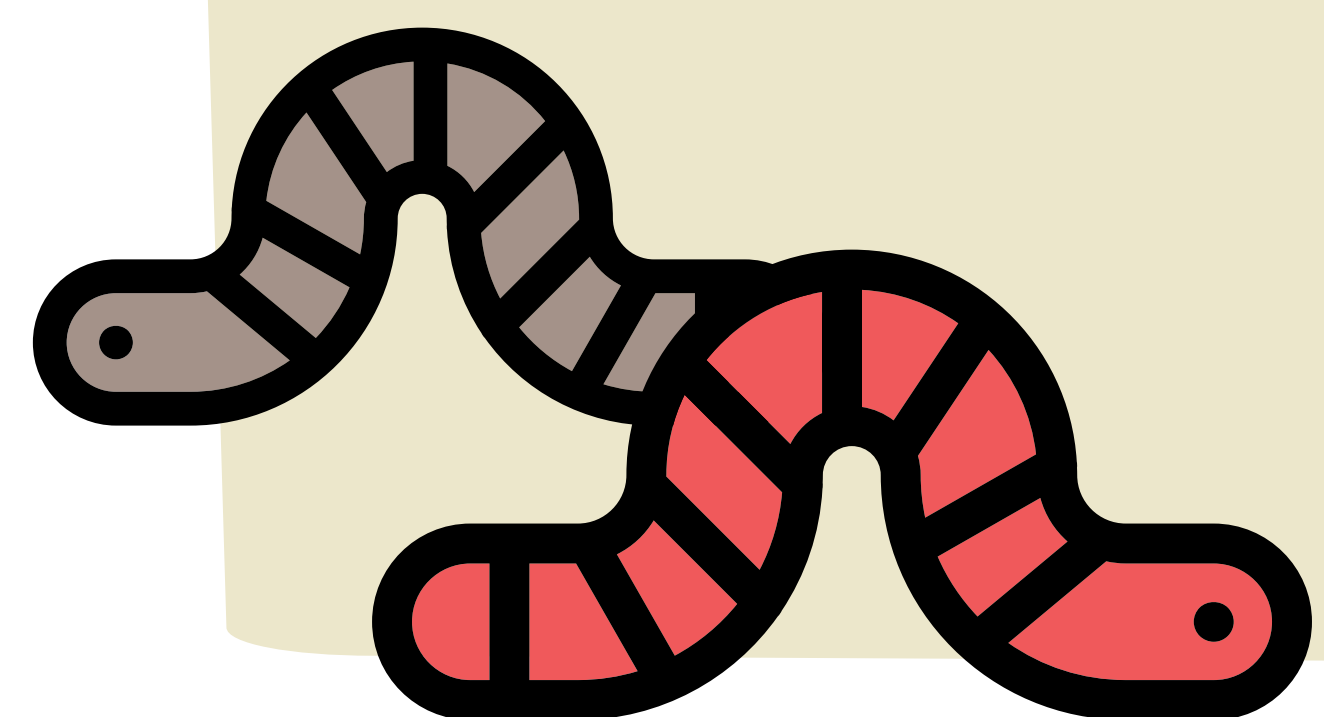

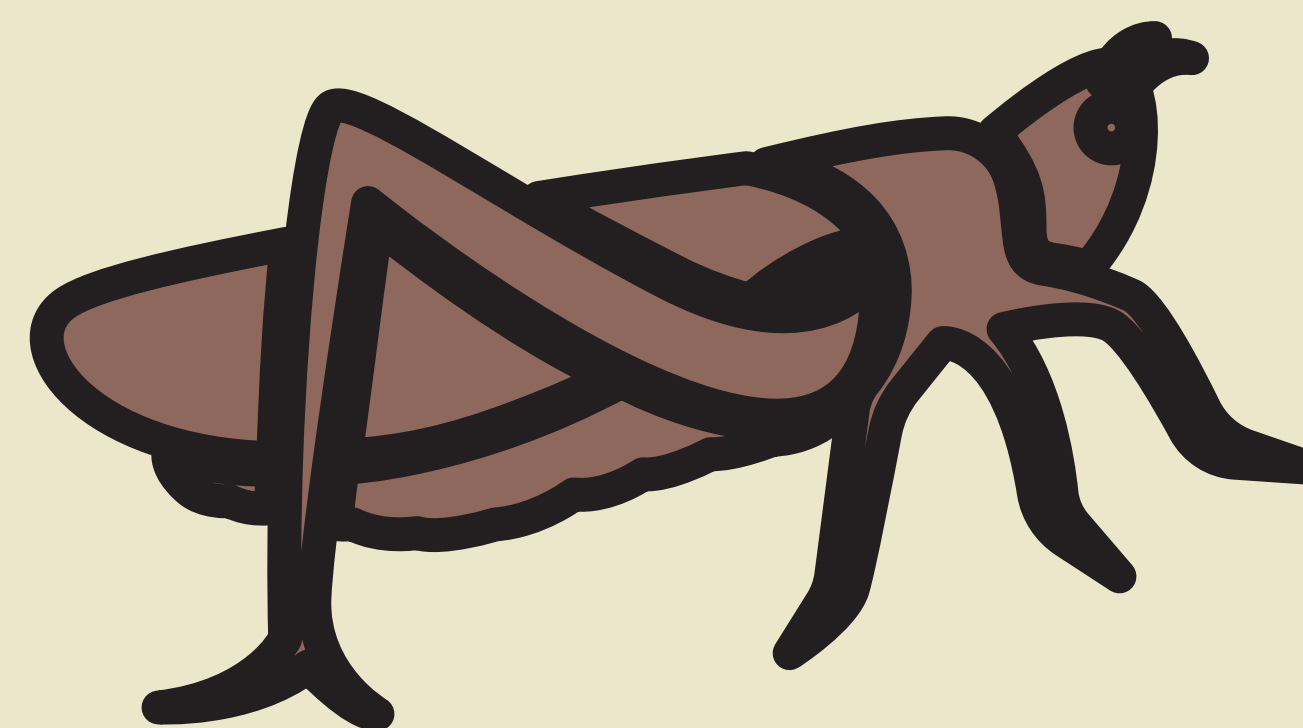

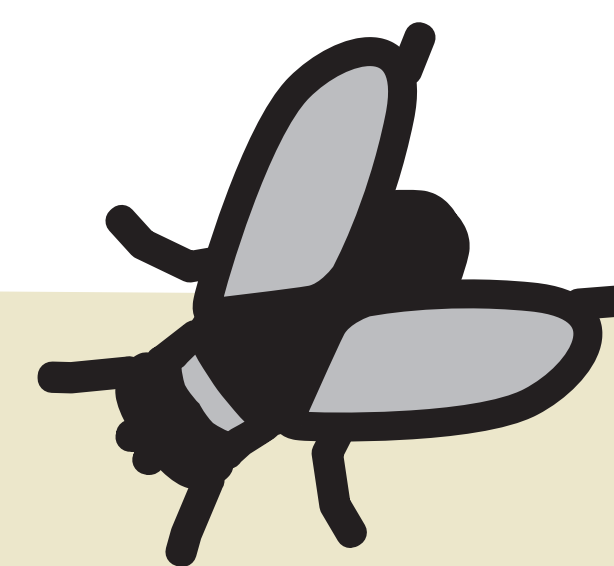

**ONCE A WEEK LIVE ANIMALS
ARE DELIVERED TO THE
KITCHEN**

THESE INCLUDE:

- Crickets
- Various worms
- Flies
- Springtails
- Various larvae
- Mealworms
- Grasshoppers

**THESE ARE SORTED AND
TAKEN TO THE
DEPARTMENTS THE
FOLLOWING DAY:**

- Squirrel monkeys
- Birds
- Reptiles
- Small predators
